PROJECT BRIEF · SCRATCH (GR 6–8) INTERMEDIATE: DATA & SIMULATIONS

Lesson 6: Project: Procedural City

Module 2 | 50 minutes | Project: procedures | Grades 6–8 · ages 11–14

Name: _____ Class: _____ Date: _____

Your mission
Generate a city skyline from procedures: a building procedure with a height parameter called in a loop with random arguments, plus at least one detail procedure. Plan it in a design document and test each procedure alone.

Checklist

- [ ] Design document
- [ ] Procedures with parameters
- [ ] Random arguments
- [ ] 8+ buildings
- [ ] Detail procedure
- [ ] Tested

Milestones

1. Design document — done on: _____
2. building (height) — done on: _____
3. Skyline loop — done on: _____
4. Details — done on: _____
5. Tested and submitted — done on: _____

Plan it

Sketch your stage and write what each sprite will do.

How it will be marked

Criterion	1 · Beginning	2 · Developing	3 · Secure	4 · Excellent
Decomposition	None	One big script	Several focused procedures	Well-layered procedures calling procedures
Parameters	None	Defined but unused	Used correctly	Several parameters used thoughtfully
Generation	Fixed picture	Some randomness	Different city each run	Varied, designed results
Visual quality	Unclear	Basic	Attractive	Detailed and striking
Testing & reflection	None	Ran once	Procedures tested alone	Explains testing and fixes
