WORKSHEET · SCRATCH (GR 6–8) INTERMEDIATE: DATA & SIMULATIONS

Lesson 11: Robust Apps: Validation and Menus

Module 4 | 45 minutes | Validation and program structure | Grades 6–8 · ages 11–14

Name: _____ Class: _____ Date: _____

Practise what you learned today. Read each task carefully.

1. Key words

Match each word to what it means. Write the letter.

a. validation ___ A. Built from separate, focused parts.
b. robust ___ B. An else that handles everything not expected.
c. catch-all ___ C. Keeps working even with unexpected input.
d. modular ___ D. Checking input before using it.

2. Plan your code

Before you build it: Validation loop: ask “Age?”. Repeat until the answer is > 0 and < 120: ask “Please enter an age from 1 to 119”. Then say join “Thanks! Age: ” answer. Write or draw the blocks you will use.

3. Plan your code

Before you build it: Menu with procedures: define greet (no input needed — or use one) that says “Hello!”, and joke that says a joke. Ask “1 = hello, 2 = joke”. If answer = 1 call greet; else if answer = 2 call joke; else say “Unknown choice”. Write or draw the blocks you will use.

4. Valid or invalid for “Enter a test score from 0 to 100”?

Write each item in the right group: Valid / Invalid.

a. 75 → _____
b. -3 → _____
c. 100 → _____
d. seventy → _____
e. 0 → _____
f. 250 → _____

5. Explain your thinking

List four “weird” inputs a user might type into your app and what your app should do for each one.

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can validate input with a loop.
☐ I can build a menu that handles every choice.
☐ I can organise features into procedures.
