Lesson 11: Keyboard Instruments

Module 4 | 45 minutes | Events and parallel scripts | Grades 3–5 · ages 8–10

Name: _____ Class: _____ Date: _____

Practise what you learned today. Read each task carefully.

1. Key words

Match each word to what it means. Write the letter.

a. instrument ___ A. Happening together in time.
b. tempo ___ B. Running at the same time.
c. parallel ___ C. How fast the beat is.
d. sync ___ D. Something that makes musical sounds.

2. Plan your code

Before you build it: Turn the keyboard into a piano: key a plays note 60, key s plays 62, key d plays 64. Write or draw the blocks you will use.

3. Plan your code

Before you build it: Dance to the beat: the Piano broadcasts “beat” every half second in a forever loop (with a drum sound); the Dancer receives “beat” and changes costume. Write or draw the blocks you will use.

4. Keep in time

Why use a “beat” message instead of giving the Dancer its own wait loop? Circle one.

a. A. The Dancer always moves exactly on the beat
b. B. Messages are louder
c. C. Dancers can’t use loops

5. Explain your thinking

Describe an instrument you would design in the Code Lab. Which keys or sprites play which sounds?

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can make keys play notes.
☐ I can make a sprite into an instrument.
☐ I can sync animation to a beat with messages.
