Lesson 6: Project: Generative Art

Module 2 | 50 minutes | Project: nested loops and randomness | Grades 6–8 · ages 11–14

Name: _____ Class: _____ Date: _____

Plan your project and practise the key ideas.

1. Key words

Match each word to what it means. Write the letter.

a. nested loop ___ A. Values chosen by chance.
b. generative art ___ B. Art made by following rules in code.
c. randomness ___ C. A loop inside another loop.

2. Plan the rules

Order the parts of a generative-art program Number them 1–5.

a. ___ Outer loop turns and repeats the shape
b. ___ Inner loop draws one shape
c. ___ Choose a random position
d. ___ Erase all and set the pen
e. ___ Repeat for more rosettes

3. My plan

Plan your project: Write rules that make art: use nested loops to build patterns from shapes, controlled randomness so every run is different, and explain your rules in an artist statement. Sketch it and list what each part will do.

4. Checklist

Tick each one when your project does it.

a. ☐ Nested loops
b. ☐ Randomness
c. ☐ 30+ lines
d. ☐ Starts clean
e. ☐ Artist statement

5. Two stars and a wish

Ask a friend to test your project. Write two things they liked and one idea to improve it.

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ My art uses nested loops.

☐ It uses randomness in a controlled way.

☐ I can explain my rules in an artist statement.
