WORKSHEET · SCRATCH (GR 3–5) ADVANCED: ARCADE ENGINEERS

Lesson 11: Game States and Levels

Module 4 | 45 minutes | Game states | Grades 3–5 · ages 9–11

Name: _____ Class: _____ Date: _____

Practise what you learned today. Read each task carefully.

1. Key words

Match each word to what it means. Write the letter.

a. state ___ A. The state when the game ends.
b. level ___ B. A stage of a game, usually harder each time.
c. game over ___ C. What part of the game you are in right now.

2. Plan your code

Before you build it: Start menu: on the flag, the Ship goes to the middle and says “Press space to start”. When space is pressed, broadcast start. When the Ship receives start, it says “Go!” and glides upward with forever change y by 2 until it reaches the top. Write or draw the blocks you will use.

3. Plan your code

Before you build it: Level up: each click on the Star changes score by 1. When score = 3, set level to 2, switch the backdrop to space and say “Level 2!”. Score starts at 0 and level at 1. Write or draw the blocks you will use.

4. Game states

Put the game states in order Number them 1–5.

a. ___ Time runs out: broadcast game over
b. ___ Score reaches the target: level 2
c. ___ Broadcast start: the game begins
d. ___ Start menu: “Press space to start”
e. ___ Show the final score and stop all

5. Explain your thinking

Plan the states for your capstone game. What happens on the menu, during play, when the level changes and at game over?

How did it go? Colour a face: 😀 I can do it · 🙂 Nearly there · 🤔 I need help

☐ I can add a start menu with a broadcast.
☐ I can change levels with a variable.
☐ I can plan the states of my game.
