LESSON PLAN · SCRATCH JUNIOR (K–2) ADVANCED: GAME BUILDERS

Lesson 2: Repeat Forever ♾️

Module 1 | 30 minutes | Forever loops | KG–Grade 2 · ages 6–7

Objective: Tell the difference between repeating a set number of times and forever, and choose the right loop for a game.

Success criteria

- I know what forever does.
- I can choose a number or forever.
- I can use loops in a game.

Key vocabulary

- **forever**: Never stops (until you press stop).
- **repeat**: Do it a number of times.
- **stop**: End the program.

You will need

- Projector with Kitabash (lesson video, Code Lab)
- Devices: 1 per learner or pair
- Printed worksheet (optional)

Timed lesson plan (30 min)

Time	Stage	What happens
5 min	**Warm-up (unplugged)**	Forever clap (5 min): one group claps forever until “stop!”; another claps 3 times.
5 min	**Watch**	Play the lesson video with captions; pause at each heading and ask a question.
8 min	**Build along**	Forever fish: learners follow the steps.
5 min	**Perform**	Five hops, Forever or a number?, Pick the loop
3 min	**Probe**	Lap the pond
4 min	**Wrap-up**	Exit ticket: When would you use forever?

Unplugged warm-up

Forever clap (5 min): one group claps forever until “stop!”; another claps 3 times.

Teaching the idea

Counted vs infinite loops. ScratchJr’s “repeat forever” end block loops the whole script; it suits ambient game elements. Puzzles here practise counted loops; forever is explored in the app.

Analogy: A clock ticks forever; a cuckoo calls 3 times.

Live demo: Run a fish with repeat 3 and with forever; compare.

Questions to ask

Ask	Listen for
When does repeat 3 stop?	After 3 times.
When does forever stop?	When you press stop.
What in a game goes forever?	Clouds, music.

Differentiation

Support
Use physical actions to feel the difference.

Stretch
A forever dance for a background character.

Common misconceptions

Misconception	How to fix it
Forever means it crashes	It just keeps going until stopped.

Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

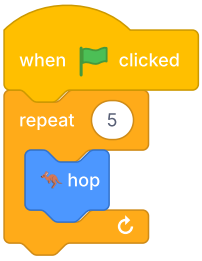

Exit ticket
When would you use forever?

Homework
Name 3 things that happen “forever” (sunrise, heartbeat…).

Answer key — Kitabash activities

1. Five hops (perform · block code)

One solution:

2. Forever or a number? (perform · categorize)

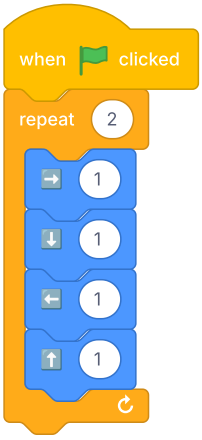

♾️ **Forever:** Clouds floating all game, Background music, A fish that swims all the time
🔁 **A number:** Jump 3 times, Clap 4 times

3. Pick the loop (perform · multiple choice)

Answer: ♾️ Forever

4. Lap the pond (probe · block code)

One solution:

Answer key — worksheet

1. **Key words:** forever = Never stops (until you press stop). · repeat = Do it a number of times. · stop = End the program.
2. **Forever or a number?:** ♾️ Forever: Clouds floating all game, Background music, A fish that swims all the time · 🔁 A number: Jump 3 times, Clap 4 times
3. **Pick the loop:** A. ♾️ Forever — It should keep going all game.
4. **Circle the loop:** ♾️, 🔁, ♾️
