LESSON PLAN · SCRATCH JUNIOR (K–2) ADVANCED: GAME BUILDERS

Lesson 4: Keep the Score ⭐

Module 2 | 30 minutes | Counting (variables) | KG–Grade 2 · ages 6–7

Objective: Add 1 to a score each time a gem is collected, and check the score at the end.

Success criteria

- I can add 1 to a score.
- I can make the score match what I collected.
- I know scores start at 0.

Key vocabulary

- **score**: Points in a game.
- **add one**: Make the number one bigger.
- **count**: Find how many.

You will need

- Projector with Kitabash (lesson video, Code Lab)
- Devices: 1 per learner or pair
- Printed worksheet (optional)

Timed lesson plan (30 min)

Time	Stage	What happens
5 min	**Warm-up (unplugged)**	Bean count (5 min): each child adds a bean to a cup for every jump.
5 min	**Watch**	Play the lesson video with captions; pause at each heading and ask a question.
8 min	**Build along**	Score keeper: learners follow the steps.
5 min	**Perform**	Three gems, three points, What's the score?, How scoring works
3 min	**Probe**	Up the ladder
4 min	**Wrap-up**	Exit ticket: What is the score after 3 gems?

Unplugged warm-up

Bean count (5 min): each child adds a bean to a cup for every jump.

Teaching the idea

Introduces a counter variable: initialised to 0, incremented after each event. Children verify by matching score to collected items.

Analogy: A tally chart: one mark for each thing.

Live demo: Collect gems and count aloud with the score.

Questions to ask

Ask	Listen for
What does the score start at?	0.
When do we add 1?	After each gem.
Does the score match the gems?	Check.

Differentiation

Support
Use a tally sheet alongside the puzzle.

Stretch
Make each gem worth 2 points.

Common misconceptions

Misconception	How to fix it
The score goes up by itself	You add to it with a block.

Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

Exit ticket
What is the score after 3 gems?

Homework
Keep score in a family game with tally marks.

Answer key — Kitabash activities

1. Three gems, three points (perform · block code)

One solution:

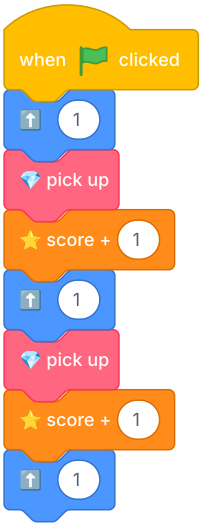

2. What's the score? (perform · multiple choice)

Answer: 4

3. Up the ladder (probe · block code)

One solution:

4. How scoring works (perform · ordering)

Order: Score starts at 0 → Walk to a gem → Pick it up → Add 1 to the score

Answer key — worksheet

1. **Key words:** score = Points in a game. · add one = Make the number one bigger. · count = Find how many.

2. **What’s the score?:** A. 4 — 1 + 1 + 1 + 1 = 4.
3. **How scoring works:** 1 Score starts at 0 · 2 Walk to a gem · 3 Pick it up · 4 Add 1 to the score
4. **Tally the score:** 4
