Timed lesson plan (30 min)

Time	Stage	What happens
5 min	**Warm-up (unplugged)**	Freeze tag (5 min): tagged children freeze — a bump rule!
5 min	**Watch**	Play the lesson video with captions; pause at each heading and ask a question.
8 min	**Build along**	Bump to collect: learners follow the steps.
5 min	**Perform**	Apple picking, Watch out!, Good bump or bad bump?
3 min	**Probe**	Which start?
4 min	**Wrap-up**	Exit ticket: What happens when your hero bumps a coin?

Unplugged warm-up

Freeze tag (5 min): tagged children freeze — a bump rule!

Teaching the idea

Collision events: “start on bump” scripts run on contact. Game rules map collisions to outcomes (collect, lose, win).

Analogy: Tag: when someone touches you, you’re “it”.

Live demo: Bump an apple (hide) and a monster (ouch) live in ScratchJr.

Questions to ask

Ask	Listen for
Which character gets the bump script?	The one being touched.
What can a bump do?	Hide, shrink, talk.
Good or bad bump?	Depends on the rule.

Differentiation

Support
Pre-build the hero's walk.

Stretch
A monster that sends a message "game over" when bumped.

Common misconceptions

Misconception	How to fix it
Bump scripts go on the hero	They go on the character that reacts.

Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

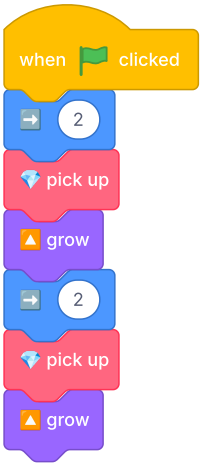

Exit ticket
What happens when your hero bumps a coin?

Homework
Invent a game rule: "If you touch ___, then ___".
