LESSON PLAN · SCRATCH JUNIOR (K–2) BEGINNER: LITTLE CODERS

Lesson 3: Project: Trip to the Park

Module 1 | 35 minutes | Project: sequences | KG–Grade 2 · ages 5–7

Objective: Plan and build a short trip for a character using arrow blocks with numbers, then share it.

Success criteria

- I planned my trip with arrows.
- My script starts with a green flag and reaches the end.
- I shared my project.

Key vocabulary

- **plan**: Decide what to do before you start.
- **test**: Try it to see if it works.
- **share**: Show your work to someone.

You will need

- Projector with Kitabash (lesson video, Code Lab)
- Devices: 1 per learner or pair
- Printed worksheet (optional)
- Printed project brief

Timed lesson plan (35 min)

Time	Stage	What happens
5 min	**Warm-up (unplugged)**	Path drawing (5 min): children draw home and park on paper and connect them with arrows.
5 min	**Watch & plan**	Play the project video; learners plan on the project brief.
10 min	**Build**	Build-along steps, then To the slide. Check in halfway: everyone has something working.
7 min	**Test & peer feedback**	Swap and test each other's work: two stars and a wish.
8 min	**Improve & submit**	Improve one thing; My Trip to the Park.

Unplugged warm-up

Path drawing (5 min): children draw home and park on paper and connect them with arrows.

Teaching the idea

First project: plan a route, sequence motion blocks with parameters, start with a green flag, test and share. Accept verbal reflections typed by an adult.

Analogy: Telling a friend the way to the playground.

Live demo: Show a finished trip; ask children to say the arrows aloud as it runs.

Questions to ask

Ask	Listen for
What is the first block in your script?	The green flag.
How many squares did your character move?	Count together.
What did your friend like?	Share.

Differentiation

Support
Provide a pre-drawn path to follow.

Stretch
Add a second character who walks a different path.

Common misconceptions

Misconception	How to fix it
The green flag can go anywhere	It goes at the start.
Projects must be long	A short trip that works is great.

Assessment

Project rubric (also on the project brief):

Criterion	1 · Beginning	2 · Developing	3 · Secure	4 · Excellent
Sequence	Not yet	Some blocks in order	Blocks in order reach the end	Neat path with numbers on blocks
Planning	No plan	Plan with help	Own plan followed	Plan changed after testing
Sharing	Not shared	Shared with help	Shared and explained	Explained and helped a friend

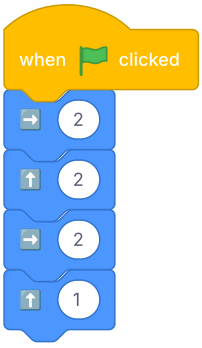

Exit ticket
Show me your green flag block.

Homework
Tell someone at home about your trip to the park.

Answer key — Kitabash activities

1. To the slide (perform · block code)

One solution:

2. My Trip to the Park (probe · project)

Answer key — worksheet

1. **Key words:** plan = Decide what to do before you start. · test = Try it to see if it works. · share = Show your work to someone.
2. **My plan:** A clear plan that covers every requirement.
3. **Checklist:** All requirements met.
4. **Two stars and a wish:** Kind, specific feedback and an improvement.
