LESSON PLAN · SCRATCH JUNIOR (K–2) BEGINNER: LITTLE CODERS

Lesson 5: Repeat It! 🔁

Module 2 | 30 minutes | Loops (repeat) | KG–Grade 2 · ages 5–7

Objective: Use a repeat block to do the same moves many times and make code shorter.

Success criteria

- I can find a pattern.
- I can use a repeat block.
- I can make my code shorter.

Key vocabulary

- **repeat**: Do it again.
- **loop**: Blocks that go round and round.
- **pattern**: Something that happens again in the same way.

You will need

- Projector with Kitabash (lesson video, Code Lab)
- Devices: 1 per learner or pair
- Printed worksheet (optional)

Timed lesson plan (30 min)

Time	Stage	What happens
5 min	**Warm-up (unplugged)**	Clap pattern (5 min): “clap, stamp” repeat 4 — children perform it.
5 min	**Watch**	Play the lesson video with captions; pause at each heading and ask a question.
8 min	**Build along**	Climb the stairs with repeat: learners follow the steps.
5 min	**Perform**	Long walk, Stairs, Read the loop, Match the long code to the short code
3 min	**Probe**	Square walk
4 min	**Wrap-up**	Exit ticket: Show me 🔁 2 with ⬆️ inside. What will the cat do?

Unplugged warm-up

Clap pattern (5 min): “clap, stamp” repeat 4 — children perform it.

Teaching the idea

Loops: a repeat block runs its contents a set number of times. Children spot repeating patterns (stairs) and replace repeated blocks with a loop, making code shorter.

Analogy: A song chorus: sing it again and again.

Live demo: Build stairs with 6 blocks, then with a repeat of 2 blocks. Count the blocks.

Questions to ask

Ask	Listen for
What goes inside the repeat?	The pattern.
What does the number mean?	How many times.
Which code is shorter?	The repeat.

Differentiation

Support
Show the pattern with coloured cards first, then circle the repeated part.

Stretch
Make the cat walk a big square using repeat.

Common misconceptions

Misconception	How to fix it
Blocks after the loop also repeat	Only blocks inside it.
Repeat makes it faster	It makes code shorter.

Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

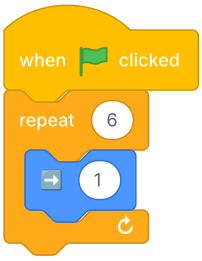

Exit ticket
Show me 🔁 2 with ⬆️ inside. What will the cat do?

Homework
Find a pattern at home (tiles, a song, stairs) and draw it.

Answer key — Kitabash activities

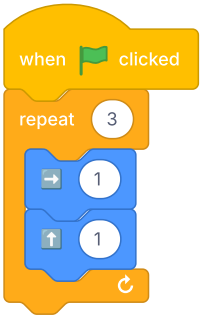

1. Long walk (perform · block code)

One solution:

2. Stairs (perform · block code)

One solution:

3. Read the loop (perform · multiple choice)

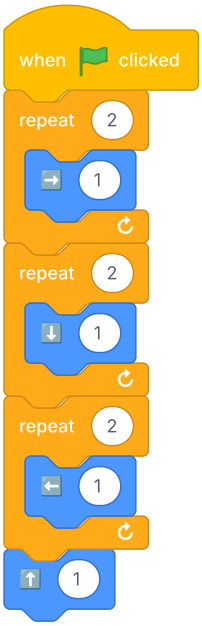

Answer: Moves right 3 times

4. Match the long code to the short code (perform · matching)

➡️ ➡️ ➡️ ➡️ → 🔁 4 [➡️] · ⬆️ ⬆️ → 🔁 2 [⬆️] · ➡️⬆️ ➡️⬆️ ➡️⬆️ → 🔁 3 [➡️⬆️]

5. Square walk (probe · block code)

One solution:

Answer key — worksheet

1. **Key words:** repeat = Do it again. · loop = Blocks that go round and round. · pattern = Something that happens again in the same way.
2. **Read the loop:** A. Moves right 3 times — The repeat does the right arrow three times.
3. **Match the long code to the short code:** ➡️ ➡️ ➡️ ➡️ → 🔁 4 [➡️] · ⬆️ ⬆️ → 🔁 2 [⬆️] · ➡️⬆️ ➡️⬆️ ➡️⬆️ → 🔁 3 [➡️⬆️]
4. **Circle the pattern:** ➡️⬆️, 3 times
