LESSON PLAN · SCRATCH JUNIOR (K–2) BEGINNER: LITTLE CODERS

# Lesson 7: Talk Bubbles 💬

Module 3 | 30 minutes | Output (speech) | KG–Grade 2 · ages 5–7

**Objective:** Make a character say something with a speech-bubble block, at the right moment in a script.

**Success criteria**

- I can make a character talk.
- I can choose when it talks.
- I can type or record words.

## Key vocabulary

- **say**: Shows words in a speech bubble.
- **speech bubble**: The shape that holds the words.
- **record**: Save your voice as a sound.

## You will need

- Projector with Kitabash (lesson video, Code Lab)
- Devices: 1 per learner or pair
- Printed worksheet (optional)

## Timed lesson plan (30 min)

| Time | Stage | What happens |
|---|---|---|
| 5 min | **Warm-up (unplugged)** | Comic strip (5 min): children draw 3 boxes: hello, walking, goodbye. |
| 5 min | **Watch** | Play the lesson video with captions; pause at each heading and ask a question. |
| 8 min | **Build along** | Make the cat talk: learners follow the steps. |
| 5 min | **Perform** | Hello at the star, Talk in order, Hi and bye, When to talk |
| 3 min | **Probe** | Act it out |
| 4 min | **Wrap-up** | Exit ticket: Show me the say block. |

## Unplugged warm-up

Comic strip (5 min): children draw 3 boxes: hello, walking, goodbye.

## Teaching the idea

Output: the say block shows a speech bubble. Position in the sequence controls timing — a key sequencing idea.

**Analogy:** A comic strip: speech bubbles appear at the right picture.

**Live demo:** Put the say block before and after the moves; ask which makes more sense.

## Questions to ask

| Ask | Listen for |
|---|---|
| When does the bubble appear? | When the say block runs. |
| How do you change the words? | Tap and type. |
| What else could your character say? | Ideas. |

## Differentiation

**Support**
Adult types the words the child says.

**Stretch**
Two characters have a conversation (take turns talking).

## Common misconceptions

| Misconception | How to fix it |
|---|---|
| The bubble appears at the start no matter where the block is | It appears when that block runs. |

## Assessment

Use the Code Lab results (auto-checked), the quick checks and the Probe answers. Written answers arrive in your review queue.

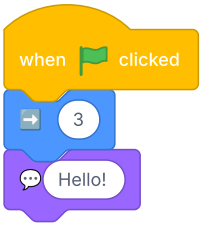

**Exit ticket**
Show me the say block.

**Homework**
Tell someone at home what your character said.

## Answer key — Kitabash activities

### 1. Hello at the star (perform · block code)

**One solution:**

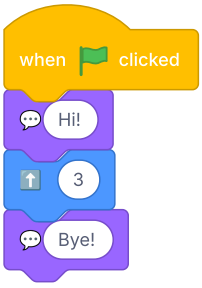

### 2. Talk in order (perform · ordering)

**Order:** 🏁 Start → 💬 Say “Hi!” → ➡️ Walk to the shop → 💬 Say “Bye!”

### 3. Hi and bye (perform · block code)

**One solution:**

### 4. When to talk (perform · multiple choice)

**Answer:** After the moves

### 5. Act it out (probe · speaking)

## Answer key — worksheet

1. **Key words:** say = Shows words in a speech bubble. · speech bubble = The shape that holds the words. · record = Save your voice as a sound.
2. **Talk in order:** 1 🏁 Start · 2 💬 Say “Hi!” · 3 ➡️ Walk to the shop · 4 💬 Say “Bye!”
3. **When to talk:** A. After the moves — The cat should arrive first, then talk.
4. **Draw the bubble:** A character with a speech bubble.
