LESSON PLAN · SCRATCH JUNIOR (K–2) BEGINNER: LITTLE CODERS

Lesson 9: Project: Treasure Hunt

Module 3 | 35 minutes | Project: sequences, loops and talking | KG–Grade 2 · ages 5–7

Objective: Plan and build a treasure hunt where a character collects treasure, talks, and reaches a goal.

Success criteria

- I planned my hunt with a map.
- My character reaches the treasure and talks.
- I tested and fixed my code.

Key vocabulary

- **map**: A drawing that shows where things are.
- **treasure**: The prize you are looking for.
- **fix**: Change something so it works.

You will need

- Projector with Kitabash (lesson video, Code Lab)
- Devices: 1 per learner or pair
- Printed worksheet (optional)
- Printed project brief

Timed lesson plan (35 min)

Time	Stage	What happens
5 min	**Warm-up (unplugged)**	Treasure map (5 min): draw a map with arrow directions to a hidden “treasure”.
5 min	**Watch & plan**	Play the project video; learners plan on the project brief.
10 min	**Build**	Build-along steps, then Pirate’s gold. Check in halfway: everyone has something working.
7 min	**Test & peer feedback**	Swap and test each other’s work: two stars and a wish.
8 min	**Improve & submit**	Improve one thing; My Treasure Hunt.

Unplugged warm-up

Treasure map (5 min): draw a map with arrow directions to a hidden “treasure”.

Teaching the idea

Integrates sequencing with parameters, loops (optional), speech output and the test-and-fix cycle. Map drawing is planning (algorithm design).

Analogy: A real treasure map: follow the steps and say “X marks the spot!”.

Live demo: Run a hunt with one wrong arrow; ask the class to find and fix it.

Questions to ask

Ask	Listen for
What did your character say?	Share.
What went wrong when you tested?	Debugging talk.
How did you fix it?	Changed a block.

Differentiation

Support
Provide a printed map with the path drawn.

Stretch
Add a second treasure and a sound.

Common misconceptions

Misconception	How to fix it
If it’s wrong, start again	Change one block at a time.

Assessment

Project rubric (also on the project brief):

Criterion	1 · Beginning	2 · Developing	3 · Secure	4 · Excellent
Sequence	Not yet	Partly reaches the treasure	Reaches the treasure	Neat path using numbers or repeat
Talking	Not yet	Says something	Says something at the right time	A little story with two speech bubbles
Testing	Not tested	Tested with help	Found and fixed a bug	Explains what was fixed

Exit ticket
One thing you fixed.

Homework
Hide a toy and give someone your treasure map.

Answer key — Kitabash activities

1. Pirate's gold (perform · block code)

One solution:

2. My Treasure Hunt (probe · project)

Answer key — worksheet

1. **Key words:** map = A drawing that shows where things are. · treasure = The prize you are looking for. · fix = Change something so it works.
2. **My plan:** A clear plan that covers every requirement.
3. **Checklist:** All requirements met.
4. **Two stars and a wish:** Kind, specific feedback and an improvement.
